PROJECT LOAD

You can trust Oceanex Forwarding to manage your global freight projects. We handle cargo that other providers can't or won't.

Your logistics plan will be tailored to the specific needs of your project: from a thorough pre-shipment assessment of potential risks, costs, and delivery times, to route and port surveys, coordination of proper component packaging, management of necessary documentation, and analysis of the transport mode.

Each shipment is coordinated with customized plans, and even the most demanding projects are executed with care and precision. Regardless of the complexity of the transport, our project cargo experts work closely with engineers and contractors to ensure each project is planned, delivered, and completed on time and to exact specifications.
